Rota Scheduling	✓	✓
Chat & Messaging	✓	✓
Staff Notes	✓	✓
Announcements	✓	✓
Audit Trail	Full	Full
Advanced Reports	✓	✓
API Integrations	—	✓

## Frequently Asked Questions

How does AI scheduling work? 

Our AI engine analyses staff skills, availability, fatigue risk scores, conflicts and historic patterns to generate optimal rota plans.

Can staff use their mobile? 

Yes — the entire workforce portal and rota calendar is mobile-friendly.

Do you support multi-site operations? 

Absolutely — tenants can operate multiple sites with staff skill requirements, templates and analytics fully segmented by location.

What makes Time Prof. enterprise-grade? 

All customers receive our full enterprise feature set, including AI conflict detection, fatigue scoring, unlimited messaging, unlimited sites and advanced analytics. We believe workforce safety, optimisation and insight should never be limited by plan.

Can we migrate from another rota system? 

Yes — we support CSV imports for staff, sites, templates and shift history.
